Software: VS Code, MS Office, MS Project, MATLAB

Certifications: CompTIA Network+

RELATED EXPERIENCE

Atlas School Tulsa, OK Role: Student Tutor

January - August 2025

- Perform live code events with in-depth presentations on various coding topics
- Engage in a peer and project-based software engineering curriculum

OTHER EXPERIENCE

Judy's Tax Accounting Tulsa, OK

December 2010 – Current

Role: Associate Accountant

PROJECTS

[SkyWeave](#), Role: Team Lead

December 2025

- Ideated and managed development of an automated UAV swarm simulation environment
- Simulated realistic UAV flight dynamics through an urban environment with coordinated formations
- Built an interactive UI with adjustable parameters controlling swarm behavior and flight physics

[Shell V2](#), Role: Continuity Engineer

April 2025

- Implemented a C-based shell supporting piping, redirects, and built-in commands
- Developed core functionalities essential for a robust command-line interface
- Gained understanding in putting together a large program with a bunch of functions while keeping memory managed

[Oregon Trail 3000](#), Role: Project Manager

December 2024

- Led the design and development of a game inspired by Oregon Trail and DOOM using Python and Pygame
- Collaborated on integrating game mechanics and user interfaces for an engaging experience

[AirBnB Clone](#), Role: Software Engineer

November 2024

- Created an AirBnB clone with an interactive webpage, leveraging HTML/CSS for the frontend
- Integrated the frontend with an API using a Flask framework in Python, backed by MySQL for data management
